

The Reason

Soulstice

You knew before i ever told you
Descend the light on me baby
Could not see through the darkness
Through the darkness to the dawn
I prayed that you'd come along
I felt before you even touched me
Descend the light on you baby
I can see right through the darkness
Through the darkness to the dawn
You showed me
You helped me keep on
You are the reason
The reason
It's true our story is unfolding
The sunlight on our faces
we can see right through the darkness
Through the darkness to the dawn
Tomorrow a new day
Will show me a new way
Cause you are the reason that i am alive
The reason the reason
Leaving the darkness in the past
Now that i've found love to last
You're the reason
So beautiful and full of bliss
A little piece of happiness
You're the reason
You are the reason
The reason the reason
