

## Too Crazy

South Border

I ain't crazy, i'm too crazy  
Just everything about you, about you girl

All this time that you see me so cold  
Hold me near, hold me close, just feel my heartbeat  
This unconditional love is what keeps my heart  
Beatin'  
Feel me deep and you will see  
How the world gets so lucky  
To have someone like me  
Who could love a woman so true  
With all honesty, like no man could do

Loving someone is giving him the power to hurt you  
But making you feel so loved is my mission to do  
Your beautiful face i can never replace  
But whenever i see those tears  
It makes me break down and cry  
When i see you sad and down  
When you feel the world is over you  
I just wanna let you know that i won't  
Hurt you no more

We know the sky ain't so clear since we've been  
Together  
Baby love i apologize, i'll compromise  
In every way that gives you happiness  
More than anythin in this world  
And i will never ever let go, never let go...
