

# Wasted

South

Are you feeling number by the day?  
Can you hear the pistons by the states?  
Empty of continuing to start,  
Always in the mind that is afar.

We snuck out the back door,  
Seen leaving,  
Didn't realize at the time,  
Got breathing,  
Now put on the back foot  
We're all feeling  
Tired, so tired, tired of getting wasted

Running around not realizing,  
Running with the scissors can be Braille  
We can edit ourselves everyday  
But time is obvious, time for a change

We snuck out the back door,  
Seen leaving,  
Didn't realize at the time,  
Got breathing,  
Now put on the back foot  
We're all feeling  
Tired, so tired, tired of getting wasted

Now put on the back foot  
We're all feeling  
Tired, so tired, tired of getting wasted
