

Love your insides

Southpaw

And all these things
That I do for you
That's because I kind of love your insides
And I would wait a thousand years for you
Because I kind of love your insides

I would give my credit card
Just for a small piece of your heart
And that would wash my pain away
Just for one day
Just for one day

I drew a sign on my wall for you
It said: "I kind of love your insides."
And all these times that I've crawled for you
Because I really love your insides

I would bare any kind of pain
Just to get into the cage of your brain
And change the things that stay
Still in our way
Still in our way
