

## Republic In My Head

Southpaw

It's true  
My way through  
It's always been you  
But I've lost you  
So what can I do  
To find my way through  
Out of here  
Confussion pain and fear  
There's no way out of here  
Just want to dissapear  
Out of there  
Republic in my head  
There's no way out of there  
One day i'll meet you there...
