

CANADA

So!YoON!

Baby, we are losing sleep
Really need to hear your voice tonight
Lying on a white bed
Waiting for time to pour out

It is not a give and take
It is not a holiday
There is not a single day
It is not for me to say

Half of my body
Half of my mind
I wait but I know
It's tough and hard for us

Half of my body
Half of my mind
I wait but I know
It's though and hard for us

Middle of the night, babe
Waiting of for your day to start
I only want you close to me
I close my eyes and see you holding me

In the dark
It is not a give and take
It is not a holiday
There is not a single day
It is not for me to say

In to the stars
Out in the sky
Is where I can find
The same moon that you and I

See in the night
I'll meet you there
And leave them behind
'Cause you are the one who can

See who I am
Out in the sky
Is where I can find
The same moon that you and I

See in the night
I'll meet you there
And leave them behind
'Cause you are the one for me

Half of my body
Half of my mind
I wait but I know
It's tough and hard for us

Half of my body

Half of my mind
I wait but I know
It's tough and hard for us
