

## Anaesthetised

Space

The world you see is the world that you want to see  
Shoot me in the head and I'll be fine  
She puts my heart to sleep sometimes  
You can kill my body but you can't kill me

Everyone seems so open  
I must be losing my reality  
Or am I having funky time?  
I'm anaesthetised

Here we are in the big bad world so just be calm  
I'm a one man crisis but I'll be fine  
She puts my heart to death sometimes  
Pray we meet before our time is near

Everyone seems so friendly  
I must be losing my mentality  
Or am I having a groovy time?  
I'm anaesthetised

Everyone seems so open  
I must be losing my reality  
Or am I having funky time?  
I'm anaesthetised  
Everyone seems so friendly  
I must be losing my mentality  
Or am I having a groovy time?  
I'm anaesthetised
