

Crying on the Webcam

Space

She's crying on the webcam
I want to kiss her now
One more minute watching you, now I feel the same
One more minute hearing you, now I feel your pain, pain, pain
She's crying on the webcam
I want to kiss her now
She's crying on the webcam
Feeling full of doubt
She's crying on the webcam
I'd like to help her out
She's crying on the webcam
I want to kiss you now
Only saw you for the first time weeping on your own
Hoping someone notices so you won't be alone, alone, alone
She's crying on the webcam
I want to kiss her now
She's crying on the webcam
Feeling full of doubt
She's crying on the webcam
I'd like to help her out
She's crying on the webcam
I want to kiss you now
La lala lalalalala lala lalalalala
Lala lalalalala
You will be an online ghost if I don't set you free
Singing from the shadows
A melancholy melody, melody, melody
She's crying on the webcam
I want to kiss her now
She's crying on the webcam
Feeling full of doubt
She's crying on the webcam
I'd like to help her out
She's crying on the webcam
I want to kiss you now
I want to kiss you now
I want to kiss you now
I have to kiss you now
I need to kiss you now
