

Despise

Space

Do you still despise when you look into my eyes
Tell me, do you understand when I take you by the hand
I've devised myself a plan to get me out
Devised myself a plan to save me from myself

Cos I need someone to love
Someone to keep my head above the maximum
Cos I need someone to love
Someone to keep my head above the maximum

You believe the lies
I can see it in your eyes
Oh, to think of you as sane give me blisters on my brain
I've devised myself a plan to get me out
Devised myself a plan to save me from myself

Cos I need someone to love
Someone to keep my head above the maximum
Cos I need someone to love
Someone to keep my head above the maximum

Cos I need someone to love
Someone to keep my head above the maximum
Cos I need someone to love
Someone to keep my head above the maximum
Cos I need someone to love
Someone to keep my head above the maximum
