Dopamine D2 Receptor A1
Now I'm fucking stuck with this criminal gene
Dopamine D2 Receptor A1
Its nothing to do with my poverty

I can just blame it on my DNA
The urge is getting stronger every single day
I'm an anti-social personality
Did I get this friction from my chemistry?

Dopamine D2 Receptor A1
Born with a defect in my makeup
Dopamine D2 Receptor A1
It plays on my brain when I wake up

I have a pre-disposition for crime
I can put it down to a bang on the head
Can't be surgically removed from me
Here I come the genetic freak

Dopamine D2 Receptor A1
Now I'm fucking stuck with this criminal gene
Dopamine D2 Receptor A1
Its nothing to do with my poverty

Dopamine D2 Receptor A1
