

Give Me Your Future

Space

"Give-me-your-fu-ture"

Our love could be giant
Like a t-rex on steroids, extra defiant
We could be universal
But I don't wanna end up your dress rehearsal

If you give, give me your future
I will never let you down
If you give, give me forever
I will never let you fall
If you give, give me your future
I will never let you down
If you give, give me forever
I will never let you fall

You're no false Maria
I am the robot under your fear
This is no mumbo jumbo
We could travel through time, never let go-oh

If you give, give me your future
I will never let you down
If you give, give me forever
I will never let you fall
If you give, give me your future
I will never let you down
If you give, give me forever
I will never let you fall

I'll never let you fall

Give! Give! Give! Give me your future!
Give! Give! Give! Give me forever!
[repeat til end]
