

## Killswitch

Space

I've heard it all before  
So could you please please  
Go tell it to the law  
You kept me on the floor  
Sapping all my energy  
Til there's nothing left of me  
So please please please, don't kill the switch on me

No no no no no, don't hit the killswitch  
No no no no no, don't hit the killswitch  
You've got me running low on battery  
So no no no no no, don't kill the switch on me

You're gonna start a war  
So if you please please  
Go tell it to the door  
You've had me on all fours  
Sapping all my energy  
Til there's nothing left of me  
Please please please, don't kill the switch on me

No no no no no, don't hit the killswitch  
No no no no no, don't hit the killswitch  
You've got me running low on battery  
So no no no no no, don't kill the switch on me

Don't kill the switch on me!

No no no no no, don't hit the killswitch  
No no no no no, don't hit the killswitch  
You've got me running low on battery  
So no no no no no, don't kill the switch on me
