

## Only Half An Angel

Space

The greatest miracle of all time  
You're the one to bewitch and amaze me  
I know a hundred famous movie stars  
Couldn't drag me away from you  
(I'd give a year of heaven for a day with you)

You're only, only half an angel  
You're only half an angel  
And I'm happy to say its a half I never see  
Oh yeah I'm to say its a half I never see [x2]

You're brilliant, witty, ambitious  
And that means all of the things I could never be  
So why you care for me is a mystery  
All I can give to you  
(I'd give a year of heaven for a day with you)

You're only, only half an angel  
You're only half an angel  
And I'm happy to say its a half I never see  
Oh yeah I'm to say its a half I never see [x2]

You're only, only half an angel  
You're only half an angel  
And I'm happy to say its a half I never see  
Oh yeah I'm to say its a half I never see [x2]
