

The Loneliest Robot

Space

"That is incorrect, the correct spelling of 'happy' is H, A -"

I don't feel human no more
Just a machine at the core
Engineered and soulless
Programmed and heartless
And no-one to bless me

I get more like a robot as the days go by
Maybe one day I'll switch my heart back on
I'm the loneliest robot
I'm the loneliest robot

I don't feel love anymore
Just in bits on the floor
Man made and hopeless
Programmed and heartless
And no-one to bless me

I get more like a robot as the days go by
Maybe one day I'll switch my heart back on
I'm the loneliest robot
I'm the loneliest robot in the world

I don't feel human no more
Just a machine at the core
Engineered and soulless
Programmed and heartless
And no-one to bless me

I get more like a robot as the days go by
Maybe one day I'll switch my heart back on
I get more like a robot as the days go by
Maybe one day I'll switch my heart back on
I'm the loneliest robot
I'm the loneliest robot
I'm the loneliest robot
I'm the loneliest robot in the world
