

Voodoo Roller

Space

Voodoo Roller lives in Solar
Many miles from here
He knows Gayday
Red peppers on Sunday
But only twice a year
You won't take me
No won't shake me
'Cos Voodoo Roller's here
But what you've got
You know you've gotta get away
From me
Keyser Soze's real so
They say
But I don't believe a
Word
The Devil himself sold
His soul to an elf
When he was turkeying he needed
The world
You won't take me
No won't shake me
'Cos Voodoo Roller's here
But what you've got you can say
You won't take me
No won't shakes me
'Cos Voodoo Roller's here
What you've got
You know you can say
What you've got
You know
S-s-say it
To me
You won't
Take me
No won't
Shake me
You won't
Take me
No won't
Shake me
You won't
Take me
No won't take me
