

Glad To Know

Spacehog

Oh, what a lucky day
When you came in my life to stay
Cause with you around somehow I've found
Not all my struggle's in vain

That's why I'm
Glad to know, glad to know
Glad to know that you're around
Well I'll sing you songs until the lights go down
I'm glad to know that you're around

Now I want you every day, here right now to stay
Cause with you by my side
We've got nothing to hide
And all of our fears are allayed

That's why I'm
Glad to know, glad to know
Glad to know that you're around
Well I'll sing you songs until the lights go down
I'm glad to know that you're around

I will build us a garden with a statue of you and me
Inscribed with the words "I love you" for all the world to see
Everyone knows that the rose has thorns
We will have ours forever

That's why I'm
Glad to know, glad to know
Glad to know that you're around
Well I'll sing you songs until the lights go down
I'm glad to know that you're around
