

Gluttony

Spacehog

Here comes Miss X again
Making me nervous
She's making me scared
She's moving up and she's shopping wild
And all the kings in Christendom can't turn her down

She's gonna swoop swoop swoop
Swooping all night long
She'll only kiss it where it counts
Until the morning sun
Makes her hide in the broad daylight

She got, she got more than enough
She got, she got far too much
She got, she got more than enough
I never saw it coming now enough is enough

Here comes Miss X again
Playing with hearts to the beat of her drum
She's got the grace
But she's got no style
Enough to keep her running for miles and miles

She's gonna swoop swoop swoop
Swooping all night long
She'll only kiss it where it counts
Until the morning sun
Makes her hide in the broad daylight

She got, she got more than enough
She got, she got far too much
She got, she got more than enough
I never saw it coming now enough is enough

Make me bleed, make me bleed
Put the squeeze on me
And in time you'll see
I'm not the guy I used to be
I'll be your favorite enemy

She got, she got more than enough
She got, she got far too much
She got, she got more than enough
I never saw it coming now enough is enough
