

## Love Is A Curious Thing

Spacehog

Shark 'em eyes what let 'em grow  
This crippled smile gives way  
Fight for nothing, dream in hand  
Fill the heart that burnt the man

Walk it backwards give up rights  
Looks flashes thoughts wild  
I fashion white that pushes front  
The bass pulls through the aisle

Love is a curious thing  
But I fall fall fall for the curious thing  
Love, it's a curious thing  
It's a curious thing  
It's a curious thing

Well magma draws snap flows the swear  
Lines the dank floors ground  
Like voices from the sun  
Or the bird that formed in fist

I kiss a cheek some little kiss  
Like asphalt hits the skin  
While under bruises pulls the blood  
I'm in, I win, I win

Love is a curious thing  
But I fall fall fall for the curious thing  
Love, it's a curious thing  
It's a curious thing  
It's a curious thing

Scream loud the room  
Every man against the glass  
I want easy crimes  
Your heart was never in it  
Slave the cow and beat the finest drum

Love is a curious thing  
But I fall fall fall for the curious thing  
Love, it's a curious thing  
It's a curious thing  
It's a curious thing
