

# Sunset Boulevard

Spacehog

I will run, I will run from the scene  
So you might see what it takes to be free  
I will say, I'll be having a sail on a river that leads  
To a town by the sea

Don't you know that you're boring  
How the world died snoring  
While you were on the screen

Dollar and sense in your car  
It defines who we are  
As you roll down Sunset Boulevard  
[2x]

I will pay for mistakes that I've made  
Yeah, I know it's a shame as I'm walking away  
Tell me what, tell me what have we made  
For the price that was paid for the heart to be saved

Don't you know that you're boring  
How the world died snoring  
While you were on the screen

Dollar and sense in your car  
It defines who we are  
As you roll down Sunset Boulevard  
[6x]
