

My heart breaks in two  
What am I gonna do?

I'm on the map now  
Used to be the background  
Living really fast now  
I'm getting cash now  
Throw 100 racks out, I jus' wanna black out  
I can't even cry now  
I've been getting numb  
Pull the fucking.45 out (pow)  
Nobody come to my house  
Find the shells on the floor  
And the chalk outline now

I can't take this feel  
Everything look like you  
My heart breaks in two  
What am I gonna do?

Everything that I do feel empty  
Nothing really matter but nobody can help me  
Hit the club, VIP, and they know my name  
Tryna act like they know me, they don't know my brain  
I got, all this liquor runnin' through my veins  
Now I'm throwing up like everyday  
Take a look in the mirror  
I don't like my face  
I don't think they really like me  
Everyone love space, yea

I'm on the map now (yea)  
Used to be the background  
Living really fast now  
I'm getting cash now  
Throw 100 racks out, I jus' wanna black out  
I can't even cry now  
I've been getting numb  
Pull the fucking.45 out (pow)  
Nobody come to my house  
Find the shells on the floor  
And the chalk outline now

I can't take this feel  
Everything look like you  
My heart breaks in two  
What am I gonna do?
