

Alone (Outro)

SpaceMan Zack

I'm recording this message
To see if there's anyone out there
I've lost track of my days at this point
And I think I'm starting to crack
I started to hear things, like noises and voices
And also started to see shadows and
I-I don't really know it's real anymore
I can't eat or sleep anymore
I missed the friends and family that I have before all this
And I'll miss the way that my life used to be
If there's anyone out there, I need help
I think I'm finally starting to realize that I'm alone in this
world
