

AWAY FROM ME.

SpaceMan Zack

I don't care no
You gon' say that shit
Yeah I'm a broken one
I never mattered bitch
And I fall into a pit
Don't think I'll be missed
I don't think I yeah
I don't think I

Everybody get away from me
Need a minute cause I'm breaking down
Feel it coming like a sickness, fix this
Baby tell me can you save me now
Every second feeling wasted here
Need a minute cause I'm shaking now
In my stomach know I'm wicked, fix this
Need somebody come and take me out

I'm a burden, cut my heart out
I'm a burden, cut my heart out
I'm a burden, cut my heart out
I'm a burden, cut my heart out

Bitch I gave you my wings it didn't matter
Watch it wither away it makes my bones break
I don't care at all, bitch, I go and play my show
Wipe my coke nose, everybody yeah

Everybody get away from me
Need a minute cause I'm breaking down
Feel it coming like a sickness, fix this
Baby tell me can you save me now
Every second feeling wasted here
Need a minute cause I'm shaking now
In my stomach know I'm wicked, fix this
Need somebody come and take me out
