SpaceMan Zack

Lately I've been rollin' around the city with my brothers  
I've been getting numb from the drugs  
Need another  
I could see you bitch in my phone  
Don't love her  
I'm just tryna cover all the pain with the money  
Yeah she see the double cup  
She like the colors then she see me coming up and that she love  
me  
Sewings in my back bitch  
My wrist bloody  
I pull up with a bad bitch and see me [?] yeah

She knows that I stay up off the drugs  
Last night felt like throwing up  
I drink too much  
Last night shawty broke my heart in the club  
The last time I'll ever let a bitch fuck me up  
We're not friends no juice no juice  
Ship sank your lips too loose  
I swear I win, you lose

Lately I've been rollin' around the city with my brothers I've  
been getting numb from the drugs  
Need another  
I could see you bitch in my phone  
Don't love her
