

Bleed Out

SpaceMan Zack

All this darkness in my brain it makes me bleed out
I don't wanna feel this way girl I can't...

All this darkness in my brain it makes me bleed out
I don't wanna feel this way girl I can't breathe now
You can look me in my face what have I become
I just end it all today so I can leave now

I got cigarettes butts on the bottom of my boots now
Single thing I do always seems to let shut down
All these lyrics in my head I was [?]
Point the pistol in the mirror screaming name as I shoot now
I'm the worst thing to ever happen to you admit it
Gave me everything I need but I can't seem to get it
Got some poison in my heart and it's killing you slowly
Got a feeling I can never go back to the old me

All this darkness in my brain it makes me bleed out
I don't wanna feel this way girl I can't breathe now
You can look me in my face what have I become
I just end it all today so I can leave now

All this darkness in my brain it makes me bleed out
I don't wanna feel this way girl I can't breathe now
You can look me in my face what have I become
I just end it all today so I can leave now
