

# Clean & Cool

SpaceMan Zack

You open up my mind  
I'm tryna get clean and cool  
Every time I try  
I always come back to you  
You got me out of my mind  
I can't go back to you  
Fuck it, I'll be fine  
What've I got to lose?

All of us wanna get known for a minute  
All this money look nice but ain't felt love in a minute  
Got a feelin' in my head, I might be close to the finish  
Now this bag don't help, throw my white flag inside of it  
Every time I stop, swear I die inside  
And I run right back (And I run right back!)  
Swear to fuckin' God you're gonna take my life  
And I'm alright with that (And I'm alright with that!)

You open up my mind  
I'm tryna get clean and cool  
Every time I try  
I always come back to you  
You got me out of my mind  
I can't go back to you  
Fuck it, I'll be fine  
What've I got to lose?

I'm down the same road  
Never got the feels for  
Save money, make it better what I aim for  
Throwin' up on a perc [?]  
She the reason why I always wanna blackout  
I hope you hear this  
I hope you see me  
Empty bottles filled with [?] took a sip  
Diamonds on me again  
Fill my hands with the scripts  
Load my body with the drank  
Mixed emotions? One last sip  
Mix the pillies with the Hen til I start to slip  
Yeah, every time I hear your name, yeah, it make me sick  
I don't wanna do this anymore  
Left a dead heart sunk now I'm cold layin' on the floor  
It never helped me  
I feel so empty  
Pills made me numb  
Now my body layin' on the floor

You open up my mind  
I'm tryna get clean and cool  
Every time I try  
I always come back to you  
You got me out of my mind  
I can't go back to you  
Fuck it, I'll be fine  
What've I got to lose?
