

Dark Place

SpaceMan Zack

Everything changed, yeah
When I saw your face
Now it's gonna rain, yeah
When you leave my place

I was in a dark place, sun was going down
I'm in a dark race, legs giving out
I'm tryna keep the pace, I hide away
But you got me out

Everything changed when I saw your face
Now it's gonna rain when you leave my place
Everything okay when you stay with me
Just tell me that it's all gonna be okay

I was in a dark place
And the pills had a choke hold on me
I was going far away
I was tryna find a way to disarm my brain
Gun bang, gun bang in my brain
I just need to find a way to reach fame
I just really want the diamonds and change
But it all went away when I found your name

Everything changed, yeah
When I saw your face
Now it's gonna rain, yeah
When you leave my place

I was in a dark place, sun was going down
I'm in a dark race, legs giving out
I'm tryna keep the pace, I hide away
But you got me out

Everything changed when I saw your face
Now it's gonna rain when you leave my place
Everything okay when you stay with me
Just tell me that it's all gonna be okay
