

# Don't Need U

SpaceMan Zack

Why you always worried about what I do?  
You love me but I don't like you  
And everybody telling me how I should live  
But this is my world, I don't care  
Don't give a fuck what you did in high school  
Don't hit me up cause you never knew me at all  
Everybody should just get up off my dick  
This is my world, I don't care

Cause I won't hear a thing  
You try to tell me  
Cause you don't know a thing about me  
And I just do my thing  
Call my phone, won't ring  
Cause I don't need you here around me  
I don't need you at all

Get the fuck up out my face  
Don't care what you got to say yeah  
Kiss the ring I'ma flex and get the cake yeah  
Don't give a fuck with the tattoos on my face  
Cause I ain't never going to stop  
Why you running in place? Yeah  
Why you always worried about what I do?  
You love me but I don't like you  
And everybody telling me how I should live  
But this is my world, I don't care

I don't care, I don't fucking care!

Cause I won't hear a thing  
You try to tell me  
Cause you don't know a thing about me  
And I just do my thing  
Call my phone, won't ring  
Cause I don't need you here around me  
I don't need you at all

I won't hear a thing  
You try to tell me  
Cause you don't know a thing about me  
And I just do my thing  
Call my phone, won't ring  
Cause I don't need you here around me  
I don't need you at all

Can I do it one more time?
