

I've been going down now  
Can you hold my hand? (Can you hold my hand?)  
Every time I look at you, I cry  
Every time you look at me, you laugh  
Things been going round now  
These feelings in my head (Feelings in my head)  
Everything I ever tried to tell you  
Everything you never understand

But I've been  
Lookin' for you  
Don't you understand  
I don't want this feeling to last forever  
But you just wanna leave me on this ledge  
I just wanna  
Turn this around  
Kickin' my feet, now I'm leaving the ground  
Here to get top, you already lovin' this sound  
Making these songs before I'm under the ground, yeah  
Gettin' the cake, flex on my exeverything is okay  
Please don't believe anything I say  
'Cause everything in my head tell me-

I've been going down now  
Can you hold my hand? (Can you hold my hand?)  
Every time I look at you, I cry  
Every time you look at me you laugh  
Things been going round now  
These feelings in my head (Feelings in my head)  
Everything I ever tried to tell you  
Everything you never understand

Oh, yeah  
I'm tryna show you things that I've been sayin'  
And this world we move alone I was afraid  
She say she love me, but I don't know  
Double my system so I gettin' cold  
When I feel down would you give [?], woah  
Sayin' that you're here but I'm gone  
Hopin' that you love me when I'm home  
And lately every night I'm feeling so alone  
Overthinking life, where did I go?

I've been going down now  
Can you hold my hand? (Can you hold my hand!?)  
Every time I look at you, I cry  
Every time you look at me you laugh  
Things been going round now  
These feelings in my head (Feelings in my head!)  
Everything I ever tried to tell you  
Everything you never understand
