

Everybody (Interlude)

SpaceMan Zack

Everybody wants to see me
Everybody wants to know my name
But ain't nobody hit my phone up
Every time I really need a friend
'Cause everybody loves to feel it
This energy is flowing through my head
They love to hear your problem talkin'
But ain't nobody wants to deal with that

My momma call, she said I drink too much
Swear I love you, momma, I don't really give no fuck
Promise y'all always liked to cause a fuss
I guess it's time for me to grow up
But never that, never gettin' old
I'ma be young forever
Steppin' back I begin to see my soul
Is getting colder than the weather

Everybody wants to see me
Everybody wants to know my name
But ain't nobody hit my phone up
Every time I really need a friend
'Cause everybody loves to feel it
This energy is flowing through my head
They love to hear your problem talkin'
But ain't nobody wants to deal with that

Uh, hi, my name is Zack. Uh, some people know me as "Spaceman"
and uh, I'm an alcoholic
