Ghost

SpaceMan Zack

Cause' I know you don't want me now
I'm on my own
Baby I've been killing myself
Can you find my ghost?

Cause' I know you don't love me now
It's getting old
Pop another then I wash it down
This shit is all I know

I've been in it like a rock star
Fucking all these hoes like a pop star
Everything is so gold in my head
I'm a monster ruin everything going out like a rock star

I've been living like a rock star
Fucking all these hoes like a pop star
Everything's so gold in my head
I'm a monster ruin everything going out like a rock star Kurt C
obain

Yeah I love you but you know me
You're all I want but I'm what you don't need

Think about the times you get shawty get right again and I don'
t wanna cry so I'll prolly get high again
I don't really know why
Can't over I think I wanna calm down
I mind me sober
I'vd been too hard on myself
And in pain you say you never felt
Baby don't lie to yourself

Cause' I know you don't want me now
I'm on my own
Baby I've been killing myself
Can you find my ghost?

Cause' I know you don't love me now
It's getting old
Pop another then I wash it down
This shit is all I know
