

Haven

SpaceMan Zack

Well I've been down this road before
I walk for miles you close the door
I think you love the pain you put me in
I find peace inside your evil grin
You've been down this road before
I'm just a game that you enjoy
You know you love the pain you put me in
I find a haven safe inside your sin

So, I still let you blame me
Everything so crazy lately
I start to feel like nothin'
So, I'm still gon' let you break me
I feel like everybody hates me
And it's startin not to phase me
The drugs I take relieve my brain
But now I'm lost when I can't feel a thing

Well I've been down this road before
I walk for miles you close the door
I think you love the pain you put me in
I find peace inside your evil grin
You've been down this road before
I'm just a game that you enjoy
You know you love the pain you put me in
I find a haven safe inside your sin
So, I still let you blame me
Everything so crazy lately
I start to feel like nothin'
So, I'm still gon' let you break me
