How did I end up like this again
How did I end up like this again
Crying all alone while I'm in my bed
Monsters talking to me, think they might be friends

How did I end up like this again
How did I end up like this again
All these fucking voices talking in my head
Telling me to jump when I'm at the edge

And you don't know anything do you
You don't know what's wrong with me
You don't have answers now do you
Don't tell me its all in my head

It's all in my head
It's all in my head
It's all in my
I've been so depressed
Wishin' I could get you out of my head
Let me know if you might feel the same
Baby that would give me hope to live
I don't wanna die no
I don't wanna die though
I been feeling too gone
Everything reminds me of what you said
Your voice in my head
It's all in my head

And you don't know anything do you
You don't know what's wrong with me
You don't have answers now do you
Don't tell me its all in my head

How did I end up like this again
How did I end up like this again
Crying all alone while I'm in my bed
Monsters talking to me, think they might be friends

How did I end up like this again
How did I end up like this again
All these fucking voices talking in my head
Telling me to jump when I'm at the edge
