If I Fall

SpaceMan Zack

If I'm the world, oh
Then you're the God holding me on your shoulders
And if we're [?] oh, no, no
Then you're the one sculpted from the boulder
If I'm a monster oh, no, no
Then you're the one that will [?] after
If we fall apart oh, no, no
We'll make the most beautiful disaster

I know you hate me (girl I know)
I know I'm crazy (I'm so broke)
I know you hate me (girl I know)
I know I'm crazy (I'm so broke)

If I fall down
Would you help me get back up?
And if I die ah
Would you think of me at all?
'Cause I know I've been nothing good
You can hate me darling I know I would
If I fall
Would you help me get back home?

Blacked out drunk but I still see you
Fuck my life but I still need you
Everything you do gonna drive me crazy
Hundred fifty on a dash and my vision lazy
Run my car straight of the bridge
Fire burning off my skin
Kill me now but love me later
Fuck me girl keep me sedated

If I fall down
Would you help me get back up?
And if I die ah
Would you think of me at all?
'Cause I know I've been nothing good
You can hate me darling and I know I would
If I fall
Would you help me get back home?
