

In My Room

SpaceMan Zack

I've got all the drugs hidden in my room
I've got all the drugs hidden in my room
Take 'em all quick and I die real soon
Shawty on my dick cause she like 'em too

I've got all the drugs hidden in my room
I've got all the drugs hidden in my room
Turn my cup purple just to match my shoes
Take another sip baby, I can't move
I can't move
When I look at you
I feel bruised

Everyone hates me, nobody cares
I cry everyday but there's nobody there
Somebody save me but nobody cares
I'm faded in public, now everyone stares

Everyone hates me, nobody cares
I cry everyday but there's nobody there
Somebody save me but nobody cares
I'm faded in public, now everyone stares at me

I've got all the drugs hidden in my room
I've got all the drugs hidden in my room
Take 'em all quick and I die real soon
Shawty on my dick cause she like 'em too

I've got all the drugs hidden in my room
I've got all the drugs hidden in my room
Turn my cup purple just to match my shoes
Take another sip baby I can't move
I can't move
When I look at you
I feel bruised
