

Murder

SpaceMan Zack

I got the demons in my cup again
So baby, run it you can tell your friends
We hit the club fucked up and shit
They know the name as soon as we walk in
So baby fuck me in the next room
Fuckin' with a winner, I'ma go and get a check soon
Shawty said she loved and she showed what that neck do
I've been dripping pretty, said she loved me when I'm dead too

Smoke in the air, and I watch it leave your mouth
She just lost her pills, now she's digging in the couch
Fuck her in the club, she don't make it to the house
I be anxious, I can't trust anyone I'm around
I got girls from the east, but I brought em' to the south
I got girls from the west, I can bring em' to the north
And I'm married to the drugs, I cannot get a divorce
And I'm smoking on some rez, so my throat is kinda course

But red rum, red rum, red rum (Red rum)
Fucked up, so long, can't see the sun
Guess I'll spend some get some it's nothing it's fun
Lover boy baby I'm the fucking one

I got the demons in my cup again
