Over

SpaceMan Zack

Aye, it's alright
It's over
Say it's over (no, no, no)

You say it's over, well baby that's alright
I get the money now, hop inside the coupe and ride
I got a bad bitch with me I'mma let her drive
While I'm hanging out the window like I'm ready to die
You say it's over, well baby that's alright
I get the money now, hop inside the coupe and ride
I got a bad bitch with me I'mma let her drive
While I'm hanging out the window like I'm ready to die

I've been ready to die
You can take my fucking heart cause I got nothing inside
I've been running through these songs like you don't lit my fir
e
Stack a milli in a month then I still ain't tired
Baby I'm on fire
I've been chilling back while my shit blow up now
Looking at me wanna get close up now
Take a pic I'm the shit they want cause
Ain't nobody that can take my spot, oh

I've been on my grind
You won't stop my shine
Don't call me on my phone
Cause I ain't got the time
Diamonds on my teeth
Chains around my neck
I pulled up Lamborghini
Just cashing out my check

You say it's over, well baby that's alright
I get the money now, hop inside the coupe and ride
I got a bad bitch with me I'mma let her drive
While I'm hanging out the window like I'm ready to die
You say it's over, well baby that's alright
I get the money now, hop inside the coupe and ride
I got a bad bitch with me I'mma let her drive
While I'm hanging out the window like I'm ready to die
