

RED LIGHT

SpaceMan Zack

Shawty leave that red light on for me, she know I'm coming
Make me drop now, I can't speak
Girl, you better love me before the daylight coming
I can-
Yeah, yeah

Shawty leave that red light on for me, she know I'm coming
Make me drop now, I can't speak
Girl, you better love me before the daylight coming
And see my blood drippin' off your teeth
Everybody wanna play, they all have got somethin'
I'ma drop another hit, watch 'em take they seats
I could fly across the world, baby, it ain't nothin'
'Cause they all gon' know the name every time I speak

I fuck around and make it bang
See the flames when I'm burning the town
You a lame, turn a stain to a memory now
I might blow my fuckin' brains, stainless colder than Hell
Lil shawty heard it's Space, her knees went straight to the ground

I ain't never gonna fall
I seen 'em lurking, let 'em kill me where I stand
Still be screaming, "Fuck 'em all"
I'll do it for you, put the pistol in my hands

Shawty leave that red light on for me, she know I'm coming
Make me drop now, I can't speak (No, I can't speak)
Girl, you better love me before the daylight coming
And see my blood drippin' off your teeth (Drippin' off your teeth)
Everybody wanna play, they all have got somethin'
I'ma drop another hit, watch 'em take they seats (Watch 'em take they seat)
I could fly across the world, baby, that ain't nothin'
'Cause they all gon' know the name every time I speak
