

Smile

SpaceMan Zack

I think I love you but I gotta go
Everyone should know I was so in love with you
But when you took control I was stuck up under you
I didn't know myself

The way you made me feel was heavenly
Couldn't quit I swore I need you to the death of me
But now I think that I forgot about the rest of me
You were bad for my health so take it easy on me

I got my feet on the ground again
Gone with the breeze
Now I think I can smile again
I couldn't see
Don't know when I'll be 'round again
They leaning on me
So take it easy on me

I got my feet on the ground again
Gone with the breeze
Now I think I can smile again
And I couldn't see
Don't know when I'll be 'round again
They leaning on me
So take it easy on me

I got my feet on the ground again
Gone with the breeze
Now I think I can smile again
I couldn't see
Don't know when I'll be 'round again
They leaning on me
So take it easy on me

I got my feet on the ground again
Gone with the breeze
Now I think I can smile again
And I couldn't see
Don't know when I'll be 'round again
They leaning on me
