SpaceMan Zack

So baby if I wrote this letter to you
Would you even write back? Would you have any clue?
I know a lot of time past baby it's true
But I wanna get it all back and spend it with you
And if I ripped my heart out and died for you
Would you finally love me like they do in the movies?
I been tryna get my life on track it's cool
'Cause baby now the cameras come out and shoot me
But I would give it all up to have you by my side
I been talkin' with the demons and they want my life
Every night I go to bed and I see you cry
You're the reason that I'm scared when I close my eyes
I been havin' trouble stayin' steady tonight
Now vision gettin' blurry when I'm sippin' the sprite
You done gone so far if you ever reply

If I took my life tonight
Would you, would you even cry?
You're the only thing on my mind
But baby now I'm runnin' out of time

So if I wrote this letter to you
Would you even write back? Would you have any clue?
I know a lot of time past baby it's true
But I wanna get it all back and spend it with you
And if I ripped my heart out and died for you
