

TARZAN

SpaceMan Zack

I been living fast, too fast
They be coming for my neck, I shoot back
Try to tell me to relax, it's too bad
I'm having fun right now
The things been moving fast, too fast
She be coming for my neck, move back
Try to tell me to relax, it's too bad
I like the way this sounds

I did my drugs in the rain, ooh
It felt just like novocaine, ooh
I'm getting off of this pain, ooh
Gas on the track is propane, ooh
Falling in and out of love now
I think I hate myself but they love the sound
I could break that bone, I got another one
And my heart stay cold, I turn the fire on

I been living fast, too fast
They be coming for my neck, I shoot back
Try to tell me to relax, it's too bad
I'm having fun right now
The things been moving fast, too fast
She be coming for my neck, move back
Try to tell me to relax, it's too bad
I like the way this sounds

She was moving fast, so fast, said she'd never take another
I was lost, so lost, thought I'd never love another
It was late, we were out in the hills, undercover
In a Rolls Royce wraith, fake stars all above her
She was naked, and we were wasted
Her face was there, but when I looked her eyes were vacant
And she convinced me, I'm not aloe
Then she released the parking brake until we rolled, yea

I been living fast, too fast
They be coming for my neck, I shoot back
Try to tell me to relax, it's too bad
I'm having fun right now
The things been moving fast, too fast
She be coming for my neck, move back
Try to tell me to relax, it's too bad
I like the way this sounds
