If I die (if I die)
Put the roses on my grave
But please don't cry (please don't cry)
Cause every night that I saw your face
It made this worth it
Girl your perfect
I'm sorry that I wasn't ever there for you
I know I hurt you
I did you dirty
But baby you know that I'm scared of the truth
I know you hate me
And girl that's okay
Cause girl I really fucking hate me too
But baby lately
I'm going crazy
Just tryna think of something I could say to you

I got a bottle in my right hand I feel gone
Got the blade in my left hand blood on my palm
Got your face in my head while I write this song
Imma take my fucking life just to right my wrongs
Baby I didn't mean to break you
Yeah I know that it's all my fault
Every time I said I hate you
It's cause you reminded me of myself
I left you alone
I been chasin dreams with my team on the road
You callin' my phone
I wrote you a song
And I just hope you hear this shit before I'm gone

If I die (if I die)
Put the roses on my grave
But please don't cry (please don't cry)
Cause every night that I saw your face
It made this worth it
Girl your perfect
I'm sorry that I wasn't ever there for you
I know I hurt you
I did you dirty
But baby you know that I'm scared of the truth
I know you hate me
And girl that's okay
Cause girl I really fucking hate me too
But baby lately
I'm going crazy
Just tryna think of something I could say to you
