Everything stands still (still)  
In the hollow place (place)

Kick the floor, I need some more  
But I can't take any longer  
I seen the world turn to a dream  
I need to get some more this  
Something else that makes me feel like I'm invincible  
Yeah, money blow, I sip it slow until I'm getting nauseous

I can't feel my face, I'm throwin' up  
I seen that place, they won't go  
Call it home  
Fallin' to hell 'till it's cold  
Just leave me to be with the ghosts  
Yeah, I can't feel my face, I'm throwin' up  
I seen that place, they won't go  
Call it home  
Fallin' to hell 'till it's cold  
Just leave me to be with the ghosts

Yeah, I hopped up on that jet, it take me anywhere I wanna go  
They lookin' at me crazy, like I ain't been on a fuckin' road  
Next day, I copped that [?] for my BFF, that's real life  
At that restaurant for like three nights  
Last week, caught three flags  
It's three [?], that's three nights  
That's thirty bands, ten every night  
Three hits for a 3p, you could never live my fuckin' life  
Fall back when it's all done  
Hot, cold, it's all wrong  
(Yeah)  
(Yeah)  
(Yeah)  
Look what I did when I'm long gone

I can't feel my face, I'm throwin' up  
I seen that place, they won't go  
Call it home  
Fallin' to hell 'till it's cold  
Just leave me to be with the ghosts  
Yeah, I can't feel my face, I'm throwin' up  
I seen that place, they won't go  
Call it home  
Fallin' to hell 'till it's cold  
Just leave me to be with the ghosts  
I can't feel my face, I'm throwin' up  
I seen that place, they won't go  
Call it home  
Fallin' to hell 'till it's cold  
Just leave me to be with the ghosts

(Ooh, ooh, ooh)  
He can't see you (see you)  
He can't see you (see you)  
He can't see you (see you)  
He's in the hollow place, now (place, now)
