

Feeding The Family

Spacey Jane

You're overcoming my face
In nineteen ways
Oh God I hate it when it rains
And I'm the one who stays
Dreaming of Greenough in my sleep
It's too cold in this house
If I love it can I leave?

We're far away from what we see
But we like it like that
Need a dose of reality
Or a death in the family
Far away from what we see
We like it like that
Need a dose of reality
Or a death in the family

He said it's on my way
Well I had a feeling, I know exactly what you'd say
He's on my way
But I'd had a feeling, I know exactly what you'd say

Well, I woke up
I never thought I'd say "it's not enough"
These folks around me they just wanna rush
I can't stand them or the way they look at me
Nobody cares about your fucking money

She said it's on my way
But I had a feeling, I know exactly what you'd say
He's on my way
But I had a feeling, I know exactly what you'd say
My friends too scared to tell me
If I'm gonna lose it, he'll have to let me down easy
All my friends too scared to tell me
If I'm gonna lose it, he'll have to let me down easy

If it's all the same, I'll just waste away
Can't fill my brain, I'm just feeding the family
If it's us or them, well I'll just pretend
I'm not in love, I'm just feeding the family
If it's all the same, I'll just waste away
Can't fill my brain, I'm just feeding the family
If it's us or them, well I'll just pretend
I'm not in love, I'm just feeding the family
