Spain

I don't want to fight your war tonight  
Put away all your guns and knives

I am waiting  
Lorelei

I don't want to see the streets tonight  
I am so wary and so tired

I am waiting  
Lorelei

Violence holds  
The scene below

People act our their paces  
Go through their places  
Burn all the traces

We alone  
Carry forth

We are two so despite what you do  
Despite what you see  
Don't give up  
We're gonna be free
