

Fuck your rules, I'm smoking on the inside
Dance like you're from ...
Pushing up on your back side
Pushing back on my dick, right
Rub it ... like a kid on a donkey ride
Stock on Phillie get your life
We ain't gotta be this ...
We ain't trying to paly god god
We ain't gotta be stars star
As long as we stay smart
Legs up on the wall, yo
Hands down on the ground now
Bent over the woofer, let the base rub you down
You nasty, you nasty, you nasty, boy you nasty
Dance it feels better this way, so much better this way
Dance it feels better this way, so much better this way
When I say holler, you say luiahalle, hallelujah
Jesus take it to church, cocking rocking put it to work
I'll be on my grind got my hands in the dirt
I'm ... mediocrity... that ain't cool
I'm without cool
... Motherfucker, let's get the crew together,
Put these...together
I have a new idea, I have a new idea
I have a new idea, I have a new idea
You nasty, you nasty, you nasty, boy you nasty
Dance it feels better this way, so much better this way
Dance it feels better this way, so much better this way
Drop the wall, take it like a doll
Slap the floor, make your booty go
Clap your hands take around fast
Move it in motion, move it in motion, move it in motion
Move it in motion, move it in motion, move it in motion
Move it in motion, move it in motion, move it in motion
...Cause he pop, pop, pop, pop
The pussy, the pussy pussy, the pussy, the pussy, pussy
Bent over girl...
Drop the wall, take it like a doll
Slap the floor, make your booty go
Clap your hands take around fast
Move it in motion, move it in motion, move it in motion
Move it in motion, move it in motion, move it in motion
Move it in motion, move it in motion, move it in motion
...Drop for me, come dance for me ... pop for me, oh, oh, oh, o
