

All I Want

Sparkle

Sitting by myself, in my cell of loneliness
I'm caught up, in a worldwind
Like a little girl, in a doggie pin
Scratch a calender wall, just counting down the days
That I'd head on back that way, Sayin

All I wanna do (all I wanna do)
Make it home to you
Get it on with you
All I wanna do (all I wanna do)
Make it home to you
Get it on with you

Now, sometimes we can be so selfish baby
In our own little world
And sometimes we have to go blind to see
That it's both of our worlds
And I refuse to be, somewhere in a lounge
With my drunk head hangin down, Sayin All

All I wanna do (oooooooooh)
Make it home to you
Get it on with you
All I wanna do (is make it home babe)
Make it home to you
Get it on with you

Soemtimes this road can be long
So long, somebody, just hold on
Keep holdin on, won't be long now
'Cause I'll be comin around that mountain when I

All I wanna do (all I wanna do)
Make it home to you
Get it on with you
All I wanna do (all I wanna do)
Make it home to you
Get it on with you
