

In Daylight

Sparks

Everybody looks great at night
Ain't no trick to look great at night
Everybody looks great at night
Ain't no trick to look great at night

You were impressive
In daylight
I saw you

Sunlight oppressive
But it's working for you

Everybody looks great at night
Ain't no trick to look great at night
Everyone has a chance at night
Leaning into the candlelight

I can't approach you, since daylight reveals me
So I'll just wait for the night to conceal me

Everybody looks great at night
Ain't no trick to look great at night
Everyone has a chance at night
Leaning into the candlelight
Everybody looks great at night
Ain't no trick to look great at night
Every night when the sun goes down
Odds will rise that you're not turned down

You were impressive
In daylight I saw you
My thoughts excessive
Calm down
She's above you

Everybody looks great at night
Ain't no trick to look great at night
You were impressive
Everyone has a chance at night
Leaning into the candlelight
You were impressive

Everybody looks great at night
Ain't no trick to look great at night
Everybody looks great at night
Ain't no trick to look great at night
Impressive
In daylight
Everybody looks great at night
Ain't no trick to look great at night
Impressive
In daylight
I saw you
