

Cat Scream

Sparta

I come from the land of liars
It's in my blood
I was a lone survivor
'Til I found love

A cat scream
Means everything
Means everything to me
A cat scream
Means everything
Means everything to me

These hands held consequences
But now I'm free
Can't hide behind defences
I want to see

A cat scream
Means everything
Means everything to me
A cat scream
Means everything
Means everything to me

It's in my blood
It's in my blood
It's in my blood
It's in my blood

I come from a land of liars
I come from a land of liars
