

It Goes

Sparta

There's a part of me
That loves it when you come around
You're what I want to see
You're coming up when I'm coming down
There's a part of me
That loves it when you come around
You're what I want to see
You're coming up when I'm coming down

We're going to get it back
Form fit sliding off the track
So it goes, it goes, it goes

I wish it wasn't true
That brokenness is all I see
But it's because of you
That I got all I got to be
I wish it wasn't true
That brokenness is all I see
But it's because of you
That I got all I got to be

We're going to get it back
Form fit sliding off the track
So it goes, it goes, it goes
We're going to get it back
Form fit sliding off the track
So it goes, it goes, it goes

It goes
It goes
