

## Breathe

Sparzanza

Decadence in a dream of confusion.  
If we dare, we can step into the sign.  
I wanna see the lights of thousand lies.  
I wanna suffocate and breed the night.

Bring me down on my knees. I have  
waited for this. I wanna be yours to  
please. Cause you are my master, the  
reason I still breath. Breathe.

I leave my flesh in the hands of my  
maker. I feel the scent of a kingdom yet  
to come. When all is gone, we can't go  
back to life. When all is done, there's  
nothing to deny.
